DYNO-TAB®

Power Booster

Beats the Bottled Boosters®

No. 45720
DYNO-TAB® ULTRA FUEL BOOSTER
6-Tab Card (.5 gram each)
 Each tablet treats 8 gallons (30 liters)
 Bulk Pack:
 Inner Carton Contains 48 Cards
 Master Carton Contains 6 Inner Cartons, Total 288

No. 45727
DYNO-TAB® ULTRA FUEL BOOSTER
2-Tab Card (.5 gram each)
 Each tablet treats 8 gallons (30 liters)
 Bulk Pack:
 Inner Carton Contains 125 Cards
 Master Carton Contains 6 Inner Cartons, Total 750

No. 45716
DYNO-TAB® ULTRA FUEL BOOSTER
1-Tab Pouch (1 gram each)
 Each tablet treats 16 gallons (60 liters)
 Bulk Pack:
 Inner Carton Contains 125 Pouches
 Master Carton Contains 6 Inner Cartons, Total 750

How fast does a fuel tablet dissolve?

Fuel Treatment Formula
 .5-gram tablet

17 min. 35 sec.

ULTRA

FUEL BOOSTER

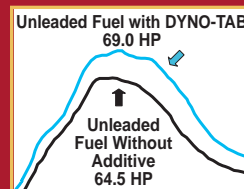

Complete Multi-Functional Gas and Diesel Additive

Dyno-tab® ULTRA Fuel Booster combines the benefits of over twenty years of innovation and successful product development into a single fuel product. One ULTRA tablet provides octane, power, wear-reducing lubricity, anti-oxidant and improved fuel economy.

Maximizes Power & Performance

9.2% Increased Acceleration with Dyno-tab® From 0 to 70 MPH

A - 87 Octane Untreated	17.57 seconds
B - 91 Octane Untreated	15.95 seconds
C - 87 Octane With Dyno-tab®	15.95 seconds

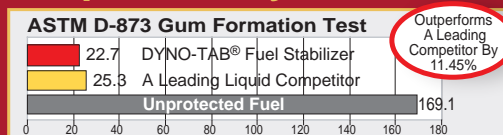

Dyno-tab® is dynamometer tested to demonstrate increased power, which results in faster acceleration without the need of high octane and more expensive gasoline.

Adds Lubrication Reduces Friction & Wear

Today's gasolines are not 100% petroleum. MTBE, methanol and ethanol are all alcohols that are added to fuel to reduce pollution. While they may burn slightly cleaner, there is reduced lubricity which results in greater friction and wear in the upper cylinder engine area. Dyno-tab® ULTRA is test-proven to increase lubricity over regular pump gasoline.

Keeps Fuel Fresh Keeps Fuel System Clean

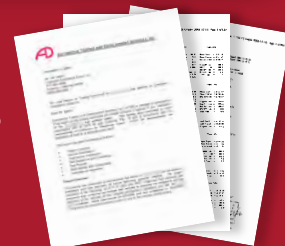

Dirty Injector Clean Injector

Impurities in fuel, including sludge, gum and varnish, will clog fuel injectors and coat critical surfaces in the combustion chamber. Dyno-tab® ULTRA retards these contaminants and keeps fuel fresh and clean-burning.

Promotes Increased Fuel Economy

In a comprehensive six-car fleet test, Dyno-tab® ULTRA improved fuel economy in select vehicles. The test protocol was designed to measure economy and emissions over 10 fill-ups, and involved a variety of domestic and foreign vehicle brands.

Independent Tests Prove It!
